

## ➡ To view and/or download our photos in Dropbox (Non Dropbox members):

Click on the link to access album on Dropbox web site. At this point the photos are not original size.

1. **To view photos** click on individual photo. Use < back-forward > to pre-view all. You can “right click” on photo to “save image as”, however this is not the original size.
2. **To save original sized single images** click on cog wheel (bottom right hand corner)/more actions/download/save file/etc. Repeat this for all desired images. At any time, Esc to go back to album homepage.
3. **To save ALL original sized images** click “Download” (top right hand corner)/ download as zip/save file/etc. If you don’t know about zip files, I can’t help you. Seek the assistance of a 10 year old grand child.

If you wish to sign up to Dropbox (or already have), you will be able to do other things I won’t explain here.

## ➡ To add photos from your camera to “invited” folder (Must be Dropbox member):

1. Download the photos from your camera to a folder on your computer. (If I need to explain how.. STOP NOW I’m wasting my time)
2. Email from “Dropbox” advising you to share / View Folder.
3. Sign In OR If not a Dropbox member, Create an Account, when prompted. This connects you to the Dropbox folder online.

4. Click on Upload / Choose files button / Navigate to and Select files from step 1 above. Use Shift-Left Click to select more then one / Save. Program auto Uploads.

**WAIT UNTIL ALL FILES ARE UPLOADED....**

(A Green tick will appear after each file is successfully uploaded) / Done.

5. Sign Out
